

Feb 18th, 2022

To whom it may concern,

Announcement of Confirmed Covid-19 Case in OHTORI ELECTRONICS (SNG) PTE.,LTD.

On Feb 18th (Fri.), we were informed that a staff of OHTORI ELECTRONICS (SNG)PTE.,LTD., one of our affiliates, has infected with Covid-19. We are fully mobilized in handling the situation and collaborating with the related organizations in order to secure safety of our partners and employees, prevent spread of infection, and continue our business.

1. Summary

A staff of OHTORI ELECTRONICS (SNG) PTE., LTD. felt discomfort in the throat and took PCR test with simple kit after work on Feb 17th. He got positive reaction and started home isolation.

2. Current status and request related to business

Based on the policy of the Singaporean government, other employees have taken PCR test with a simple kit on Feb 18. No new infected persons have occurred at present. We are doing normal business now.

We kindly ask for your understanding of respecting human rights and privacy of the patient and their family members.

3. Countermeasures

We are committed to prevent the infection and continue to take effective measures such as washing and sanitizing hands, wearing masks, regular sanitizing of areas workers may touch, introducing flexible work hours, measuring body temperature before work, limiting domestic and overseas business travels, and replacing face-to-face meetings with online meetings.
